

We did a Spanish course at the EDEAQ in May/June 2009 and we thoroughly enjoyed our time there. The standard of teaching at the school was exemplary; every lesson was uniquely tailored depending on ability and which area we wanted to focus on. Each teacher offered a different approach and encouraged us to really explore the language.

The atmosphere in the school was fantastic: in breaks between lessons we had the opportunity to practice our conversational Spanish in a relaxed atmosphere over a wide selection of teas.

One of the best things about the school was that the experience didn't just end when you left the classroom. A jam-packed timetable of social and cultural events was drawn up by the managers of the school and there was always something to enjoy in the evenings.

We also took the opportunity of doing a home-stay during our time in Arequipa and we were delighted with our friendly hostess and extremely comfortable surroundings.

Arequipa is a beautiful town with abundant sunshine and plenty to offer both in terms of culture and night-life, without being so hectic as other cities such as Cusco and Lima. We would thoroughly recommend the school to people of all abilities and it was fantastic value for money.
