

Having taken classes for five weeks in July/August 2007, I would most definitely recommend this school. With approachable, thorough and motivated teachers, the EDEAQ has, on the whole, improved my Spanish more than other schools before it (I went to schools in both Argentina and Chile). In addition, Arequipa has been a great place to study due to its location, cultural diversity and proximity to some of the natural wonders of Peru (Cañon de Colca, Cotahuasi, Lake Titicaca, etc.) - one is never left without something to do.
